SUMMARY

Business Intelligence professional with **2 years of industry experience** specializing in **Power BI development and data-driven reporting solutions**. Experienced in designing and developing interactive dashboards, reports, data models, and visualizations using **Power BI Desktop, Power BI Service, and Power BI Report Builder**, based on client and business requirements. Proficient in **Python development** with a strong understanding of **machine learning concepts**, along with hands-on experience with **Git, GitHub, and GitHub Actions**. Familiar with cloud and DevOps technologies including **AWS, Terraform, and HashiCorp Vault**, as well as monitoring and automation tools such as **UAC and Dynatrace**. Experienced in leveraging AI-powered productivity and development tools, including **Microsoft 365 Copilot, GitHub Copilot, and Claude**, to enhance development efficiency, reporting workflows, and overall productivity.

SKILLS

Business Intelligence: Power BI, Power BI Desktop, Power BI Service, Power BI Report Builder, DAX, Data Modeling

Databases & Data Sources: SQL, PostgreSQL, Amazon Athena, DynamoDB, ODBC, JSON

Programming: Python, SQL, Machine Learning Concepts

Cloud & DevOps: AWS, Terraform, HashiCorp Vault, Git, GitHub, GitHub Actions

Monitoring & Automation: UAC, Dynatrace

AI & Productivity Tools: Microsoft 365 Copilot, GitHub Copilot, Claude

Microsoft Office: Microsoft Word, Excel, PowerPoint

Communication & Collaboration: Strong verbal and written communication, stakeholder coordination, teamwork, presentation, and technical documentation.

Problem Solving & Analytical Thinking: Troubleshooting, root-cause analysis, logical reasoning, debugging, decision-making, and attention to detail.

Management & Adaptability: Requirement gathering, task prioritisation, time management, deadline management, ownership, adaptability, and continuous learning.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Accenture

08/2024 – Present
Hyderabad, India

- Developed interactive **Power BI dashboards and reports** based on client and business requirements using Power BI Desktop, Service, and Report Builder.
- Created data models, DAX measures, filters, parameters, and visualizations to deliver effective **Business Intelligence solutions**.
- Worked with multiple data sources and optimized reports and queries for better **performance and usability**.
- Used **Python** for development and automation and applied knowledge of machine learning concepts where applicable.
- Worked with **Git, GitHub, GitHub Actions, AWS, Terraform, and HashiCorp Vault** in application development and DevOps activities.
- Utilized **UAC and Dynatrace** for automation, monitoring, and troubleshooting.
- Leveraged **Microsoft 365 Copilot, GitHub Copilot, and Claude** to improve development efficiency and productivity.

PROJECTS

Super Store Sales & Profit Analysis Dashboard

Developed an interactive **Power BI Super Store Dashboard** to analyse sales, profit, quantity, and shipping performance across regions, states, cities, customer segments, and payment methods. Created dynamic KPI cards, geographic visualisations, charts, and interactive filters to identify sales and profitability trends. Analysed monthly and yearly performance to provide actionable insights for business decision-making.

Detection of Adulterants in Milk Using Conductivity Measurements

Developed an IoT-based milk adulteration detection system integrating Raspberry Pi, conductivity and pH sensors, Machine Learning, and a mobile application. The system collects and analyses sensor data to identify and classify milk adulteration levels. A mobile application provides a user-friendly interface for displaying real-time sensor readings, analysis results, and milk quality classification.

EDUCATION

B.Tech

Malla Reddy University

11/2020 – 07/2024

Hyderabad, India

Intermediate

Sri Chaitanya Jnr College

06/2018 – 03/2020

Hyderabad, India

Secondary Education

Shree Swaminarayan Gurukul International School

03/2018

Jadcherla, India

CERTIFICATES

- Microsoft Certified: Power Bi Data Analyst Associate
- NPTEL Certified: Deep Learning

LANGUAGES

- English
- Telugu
- Hindi
